A Few Words About Chariot.

Chariot Carriers is one of the very few companies anywhere in the world dedicated solely to the outdoor transportation of children. We are guided by principles such as family togetherness, outdoor activities, health and fitness, balanced lifestyles and an ongoing commitment to turning your family outings into unforgettable memories, and of course, the safety of both you and your child.

Chariot is the market leader in North America and many European countries. In fact parents have been choosing our carriers for more than a decade, citing the quality and innovation of our products, our attention to detail and the customer care we provide worldwide.

Looking to the Future....

Celebrating 15 years of Progress and Innovation.

Fifteen years ago, Chariot was just six friends hand building child trailers in a small wood working shop in Calgary, Canada. Today we're still in Calgary, however we are now a team of about 200 people working in a new 65,000 square foot high-tech facility. For making this progress possible, much of the credit needs to go to all our employees, customers, retailers, distributors, friends and supporters - thank you!

Needless to say, the past 15 years has been a great and fun ride, one packed with unlimited excitement and challenge. And while our products have evolved, and the business has grown, Chariot continues to be as dedicated as ever to designing and building the finest child carrier products in the world - today, and well into the future. Enjoy!

15th Anniversary Special Edition - the CSL (Chariot Super Light)

To mark our 15th anniversary Chariot has introduced a new Special Edition X-Country carrier, the CSL. As a tie-in to the past, this innovative and lightweight carrier shares a few key characteristics with our first-ever model, the Cabriolet. For example, they both use Chariot's patented folding design, they both convert from a trailer to a jogging stroller (however the CSL has 3 other available conversions), and they are both green!

These past similarities aside, the CSL is all about the future. By incorporating high-tech materials such as ODLO4™ racing sailcloth and Energlo® photo-luminescent (glow-in-the-dark) fabric, and with components such as 20" racing wheels and a wireless speedometer, the CSL is definitely forward thinking! To learn more about the innovative CSL, visit page 21.

Original 1993 Cabriolet

Go Green!

Peter and Andrea Tombrowski have been living car-free in Calgary, Alberta, Canada since 1998. Their book, *Urban Camping: A Testament to Living Without a Vehicle*, describes their rewarding and inspirational life. The Tombrowski's have two young children, Lucas (8) and Natalia (6). Indispensable for their many trips throughout the city are their single and double Chariot carriers. As their children get older and become more capable of walking long distances, the carriers get used more frequently for cargo (eg: groceries).

The Tombrowski family embraces their car-free choice for environmental reasons and because it allows them to live a more purposeful, healthy life. They strive to be positive, working with what they have. With their Chariot carriers, the Tombrowski's provide an excellent example of how it is possible to reduce one's vehicle-dependency in a large city.

What is cts?

CTS, Child Transport System, is Chariot's breakthrough concept in child transportation, and it's all about versatility. Whether you stroll, jog, bike, hike or cross-country ski, your CTS carrier can quickly and easily convert to take your child along with you wherever you want to go.

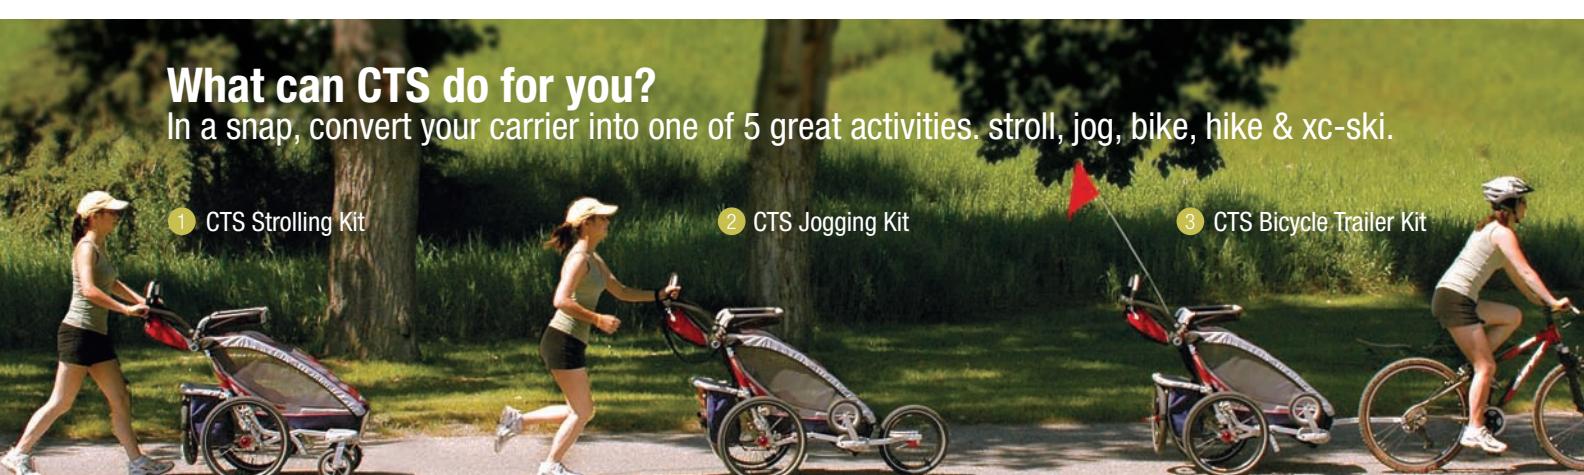

All the magic starts here.

At the heart of the CTS system, is Chariot's revolutionary VersaWing™. This innovative component allows each of the CTS conversion kits to be quickly and easily secured.

What can CTS do for you?

In a snap, convert your carrier into one of 5 great activities. stroll, jog, bike, hike & xc-ski.

1 CTS Strolling Kit

2 CTS Jogging Kit

3 CTS Bicycle Trailer Kit

Not shown, CTS Hiking kit and CTS XC Ski Kit

CTS CONVERSION KITS

Strolling Kit

(Newborn & Up)

This is the perfect way to start using your Chariot. The CTS Strolling kit includes two easy turning wheels that simply attach to your carrier's VersaWings™ for all weather strolling.

Jogging Kit

(6 months & Up)

If you enjoy getting out for a run, you'll need the CTS Jogging kit. This kit includes a 16" quick release wheel with lightweight aluminum arms. Attach the jogging arms to your carrier's VersaWings™ and you are off and running.

Bicycle Trailer Kit

(1 year & Up)

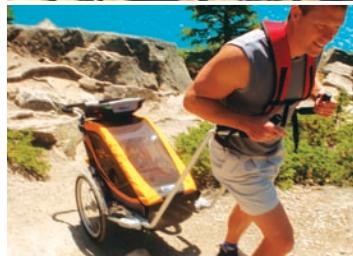

Hit the road with the CTS Bicycle Trailer kit. The stainless steel hitch cup stays with your bike and the unique ezHitch™ makes attaching and removing the carrier a breeze. The CTS Cycling kit includes the lightweight aluminum hitch arm, Axle Mount ezHitch™, extra tall safety flag and approved reflector kit.

Hiking Kit

(6 months & Up)

Take the load off your shoulders and pull it behind you with the CTS Hiking kit. This unique kit features two lightweight aluminum tow bars and a padded shoulder harness.

Cross-Country Ski Kit

(6 months & Up)

You don't need to stop when the snow starts to fly. The CTS Ski kit features two lightweight Rossignol skis and telescoping aluminum tow bars with waist belt.

Check out our web site for more information on CTS.

Chariot Innovations

3M™ Scotchlite™ Reflective Materials

Chariot incorporates up to five different types of 3M™ Scotchlite™ materials helping to ensure high visibility in nighttime use conditions.

Energlo® and Stridelite™

Not only does your carrier reflect light, but with the patented Energlo® photo-luminous fabric and Stridelite™ electroluminescent lamps (sold separately) your nighttime visibility options go way up.

(Cougar, CX & CSL)

CAS™ Chariot Adjustable Suspension

Easily adjust Chariot's patented CAS suspension system without tools, and smooth out the big and small bumps along your path.

(Corsaire XL, Cougar & CX)

VersaWing™ and ezClick™

As the heart of the CTS system, the VersaWing™ mounts all of the CTS conversion kits, as well as the brake and side fender kits.

ezFold™

Chariot's patented ezFold™ is the simplest and fastest in the industry. It also ensures that when the carrier is open it is locked safely in place.

Child Comfort.

Spacious, ergonomic, and contoured for growing children, Chariot's child comfort innovations are unmatched in detail. With innovations such as padded, reinforced seat systems, and fit enhancing accessories such as the Baby Bivy, Infant Sling and Baby Supporter, your children will always enjoy a great ride.

Handlebars

Chariots have either an ergonomic five-position handlebar (CX) or Height-Right™ Adjustable handlebar. Easily adjust these handlebars to suit your pushing style.

(X-Country and Classic series)

Multiple Storage Options

All models offer spacious storage, such as a rear mesh pocket and a rear wallet/key/phone pocket as well as the innovative fold away rear storage compartment on the Cougar and CX.

Click n' Store™

These built-in brackets allow you to easily store your jogging or cycling arm right on the Chariot itself.

(Cougar, CX & CSL)

Drum Brakes

These dual rear drum brakes provide fast stops in strolling or jogging modes and acts as a convenient hand operated parking brake.

(CX only)

ezHitch™

The patented ezHitch™ makes attaching or detaching your Chariot to a bike simple, and the ball and socket design ensures maximum range of movement while riding.

Runners Kick Stride and Aero Styled Profile.

The X-Country Series is a multi sport design. They have a low center of gravity, a raked back design and lots of room for a runners kick stride.

X-Country

CTS Adventure Carrier Series

Cheetah 1&2

Cougar 1&2

CX 1&2

CSL

The X-Country series is designed for maximum flexibility, thus eliminating the need to purchase several dedicated child carriers. Sold as a chassis only, you can choose up to five CTS kits to suit your lifestyle. Whether you choose to stroll, jog, bike, hike or cross-country ski, the X-Country series was designed to perform as well, or better, than any dedicated units on the market.

Safety in Action.

When you purchase a Chariot Carrier, you're buying an engineered product that has undergone years of internal and real-world testing. By integrating product design and testing all under one roof, Chariot is able to raise the bar in product safety and quality.

Not only does Chariot comply with applicable safety standards, but all of our products must also pass our own much higher internal standards. Independent international test results with Chariot products have verified our quality.

All Chariot trailers meet or exceed
ASTM Standard F1975-02

LOVE IT!! What more can I say!

Denise (Cougar 2 owner)

I really like the trailer. I don't drive so I use it as my car. Everything fits perfectly in it and the kids are always comfortable. In the winter they are very cozy inside it.

Isabel (Cougar 2 owner)

Great product!! Our daughter really enjoys it (just like her father ;-)

Martien (Cougar 2 owner)

We've been extremely happy with the Chariot thus far. We take it everywhere... and many people have stopped to ask us where/how to purchase one.

Shauna (CX 1 owner)

I like the aluminum frame (lighter weight) and the gears (good for hills). I've already taken my two oldest kids (5 and 6) on several rides and we love it!

Thomas (Catch'em owner)

We recently purchased the double stroller after enjoying the single for about a year and a half. We LOVE this product and it helps us to keep our active lifestyle going.

Catriona Le May Doan

"I absolutely love my new Chariot CX. I use it every day, regardless of the weather. It gets me outside running or walking, and is perfect to transport my daughter Greta, and new son, Easton. I use it to do errands, and with the large storage compartments, I even use it to get groceries. I get exercise, the kids get fresh air, and we are also being good to the environment!"

Catriona Le May Doan. Two-time Olympic Gold Medallist

Along with my child carrier backpack, the CX2 was by far one of the best investments that I have ever made. My son loves it, and asks for his "car" on a daily basis. Whether it is a bike ride to a park, or a trip to the zoo, this is the most durable and reliable child carrier I have ever seen.

Joseph (CX 2 owner)

The most wonderful product on the market. With having a taller 4 year old and a new baby this was the only stroller on the market that would accommodate both children. I got my life back by being able to enjoy the outdoors and stay in shape with my children. Thanks for making such a wonderful product!

Carmen (Cougar 2 owner)

I recently purchased a Chariot Caddie bike trailer and my 20-month old daughter and I really enjoy it. The ease of use and the quality are very apparent. Thank you for making such a quality product!

John (Caddie owner)

We love our Chariot and use it almost daily in the spring-summer-fall, and 2-3 times a week in the winter. Our best baby purchase ever.

Benoit (Cougar 2 owner)

SIDE CARRIER

BICYCLE SideCarrier

The patented SideCarrier has to be the coolest way to see the world with your child, as they ride right beside you. It allows for interaction and a watchful eye as you head down the pathways together, while your child has an unobstructed view of the road.

The pivoting SideCarrier hitch keeps the carrier level, allowing the bicycle a full range of movement while protecting your child with the enclosed frame.

FEATURES

- Ultra-stable with extra-low center of gravity
- SideCarrier hitch installs in minutes on most standard bikes, then the SC goes on/off in seconds
- The SC mounts on a bike's right side, so the child is on the safer side of bike paths, away from other oncoming users
- The SC stays upright at all times, letting the bike lean gracefully into turns
- The axles of the bike and SC align, so the SC's wheel doesn't scrub or skid when turning, even when stopped
- 6063-T54 and 6351-T6 lightweight aluminum frame, stiff oversized 1.5" lower frame protects child, wheel & underside of SC
- A bike and SC are the same width as a traditional two-child trailer, yet much shorter
- The SC can be folded and pivoted up to the bike when parked in a narrow space
- Enclosed single child cockpit
- Quick-folding design
- Rear storage bag and large mesh pocket
- Deluxe padded shoulder harness
- Mesh upper seat
- Tinted side windows
- 20" spoked stainless aluminum wheel with push-button-release
- Maintenance free cartridge bearings
- 2-in-1 weather cover
- 600 denier polyester fabric
- 3M™ Scotchlite™ Reflective Material
- Limited Lifetime Warranty

CATCH'EM

TRAILING Bicycle

The lightweight aluminum Catch' em is the perfect extension of the Chariot family. Your children will learn the finer points for riding while safely attached to your bike.

The Catch 'em folds up for easy transport and storage.

FEATURES

- For children approximately 5–8 years old, depending on their size and strength
- Lightweight, durable aluminum frame with no-tools folding mechanism
- Fast, easy no-tools quick-connect hitch with included aluminum shims for various sized seat posts (hex key required for initial assembly)
- Lightweight and strong aluminum components: 20" rear black-anodized rim, seat post and 140mm child-length cranks
- 6-speed Shimano SIS shifter and derailleur
- Rear fender and front splash guard and chain guard included
- Clip to hold Catch' em in folded position
- Padded handlebar crossbar
- Safety flag and reflectors
- Eyelets to mount a rear luggage rack
- More stable ride for child than a bike bar extension (a device that links a child's bicycle to an adult's)
- Shorter than bike bar extensions so turns are easier
- Limited Lifetime Warranty

Like all Chariot products, the Catch 'em is a breeze to attach to your bike. Once installed, the quick release has it off in mere seconds for when you're on your own.

Chariot Accessories

No other child carrier company has thought about your lifestyle as much as Chariot has. That's why we offer so many accessories to enhance the quality time with your child.

Stridelite™ Strobe Kit

Licensed exclusively to Chariot, the patented Stridelites™ provide the highest level of visibility. The kit comes with two electroluminescent lamps which are completely flexible, virtually weightless and highly durable. Easily installed, this kit offers a blue strobe light that is visible from 600m and has a lifespan of 20,000 hours! Cougar, CX & CSL only.

X-Country Cargo Rack

The cargo rack quickly attaches or removes to your carriers frame for convenient additional storage space. Available for single or double carriers. X-Country only.

Handlebar bag

This bag easily fastens to your carriers handlebars and can be removed and used as a diaper bag or child's backpack. The bag features an external water bottle pocket and a sleeve for a one-litre hydration bladder (bladder not included.)

Hydration Kit

This kit comes with two water bottles and frame clips. The parent's larger bottle clips to your carriers handlebar while the child's smaller bottle clips onto the interior frame.

Jogging Brake 1.0

For use in jogging mode on CTS carriers with either VersaWing™ 1.0 or 2.0. This quick release caliper brake provides additional stopping power from the handle bar mounted lever. This kit fits either 1 or 2 child carriers and easily removes without tools for conversion to other kits.

Jogging Brake 2.0

For use in jogging mode on X-Country CTS carriers with VersaWing™ 2.0. This brake is designed to fold away under the carrier when not in use. This brake features an integrated fender to protect the front of your carrier. Available for 1 or 2 child carriers.

Side Fenders 2.0

These fenders easily attach to your carriers VersaWing™ 2.0 to help keep dirt and debris away from your carrier. The quick release brackets make adjustment quick and easy.

Axle Mount ezHitch™

The Axle Mount ezHitch™ is mounted to a second bike when you want to easily move your cycling ready Chariot from one bike to another. Compatible with both solid and quick release rear axles. Package includes hitch cup and quick release skewer.

SideCarrier Hitch

This SideCarrier Hitch is mounted to a second bike when you want to easily move your Chariot SideCarrier from one bike to another. Compatible with most standard bikes.

Catch'em Hitch

This Catch'em Hitch is mounted to a second bike when you want to easily move your Chariot Catch'em from one bike to another. This package comes with four seat post adapters and the Catch'em Hitch.

Rain Covers

These clear fitted covers are used when you require protection from heavier rain conditions. They can be used in place of, or, in addition to your current weather cover.

Storage Covers

This fabric cover helps protect your Chariot while not in use. Available for 1 or 2 child carriers.

Classic Cargo Conversion

Turn your Cabriolet or Caddie into a full sized cargo carrier. This kit includes a tough reinforced floor insert with anchor points, and a water resistant cover.

Travel Bags

These softcase bags help protect your Chariot while travelling and are also great for storage. These oversized bags also include two wheel bags to help keep your carrier clean. Available for 1 or 2 child carriers.

Child comfort accessories:

Baby Bivy

The Baby Bivy is designed to make it easy to get strolling with your new baby. For little ones weighing 6 to 18 lbs, it easily attaches to your carriers frame and seat belt. And with the attached handles it can be quickly moved in and out of your Chariot without disturbing your child's sleep.

Infant Sling

Give your baby added lateral support while providing maximum comfort and stability. The hammock like design helps provide a smooth ride and it allows the baby to be reclined while still being able to look around and see the world outside.

Baby Supporter

As your little one grows and learns to sit upright, the Baby Supporter helps provides a little extra support. The padded sides and head rest also make it more comfortable during naps. The head support is adjustable to accommodate growing children and can also be removed when wearing a helmet.

All- Season Bunting Bag

An oversized, fleece lined bunting bag that can be used with one layer as a seat liner or two layers on cooler days. The outer layer is made of wind resistant microfiber. The Bunting Bag features a vinyl foot area for easier cleaning.

Frequently Asked Questions

Q. Where are Chariot Carriers made?

A. All of our carriers are hand crafted in Calgary, Alberta, Canada.

Q. How old does my baby have to be before I can use my Chariot?

A. You can start using your Chariot for strolling with a newborn provided you have the Baby Bivy installed, or about 1 month old using the Infant Sling. Running with your child will depend on their own development and the terrain, however we recommend they are at least 6 months old. For cycling your child should be about 1 year old and able to wear a properly fitted helmet.

Q. What is Chariot's helmet policy?

A. Your child should be wearing a properly fitted and approved bicycle helmet at all times while cycling with your carrier. We recommend that they also wear a helmet while you are doing any other fast paced activities with your Chariot.

Q. Can I get replacement parts for my Chariot?

A. Yes. It is best to first inquire about your required parts through your local Chariot retailer. We believe it is important to stand behind our products, that's why all Chariot products are covered by Chariot's Limited Lifetime Warranty.
